

***Allowable Subject Matter***

Claims 14-26 are allowed.

**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The closest prior art Baba et al. teach a composition comprising ultraviolet absorbers and ester oil selected from pentaerythritol tetra-2-ethylhexanoate, glyceryl tri-2-ethylhexanoate, neopentyl glycol dicaprate, etc. However, the present invention is a method of producing a cosmetic comprising ultraviolet absorbers, ester oils and an ester compound produced from glycerin, behenic acid and eicosanic acid, wherein the composition is added to an oil phase of a cosmetic. Applicant has demonstrated unexpected results when the preparation is added to an oil phase. Table 1, in the declaration filed 8/04/2009 demonstrates that when the preparation is added to the oil phase of a cosmetic composition the dispersibility, feel and extension of the composition improves.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
